SUMMARY:

Total 7 years of rich work experience which includes Umbraco CMS(v7-Latest) ASP.NET MVC, ASP.NET Core, Entity Framework, ReactJs, AngularJs.

Experience includes:

- Experience across .NET Framework and .NET Core including SQL Server, Entity framework, code-first approach, XML, REST API development.
- Experience with Umbraco CMS. I worked with Umbraco 7, 8, 9. I have developed so many web site and applications. Also developed plugins themes.
- Strong skill in SQL Server Integration Services (SSIS) packages, Data Migration, and Data Warehousing with Facts & Dimensions.
- Hands-on experience in debugging, error handling, and deploying SSIS packages.
- Strong SQL / T-SQL Querying & SQL Development / Programming skills including Stored Procedure, View, Functions, Data Management.
- Hands-on experience in the development of Multi-tier applications, Repository patterns, CQRS patterns.
- Hands-on experience in React Js, AngularJs, HTML, CSS, Javascript, Typescript.
- Developed plugins and customized Examine and indexer.

PROFESSIONAL SKILLS:

Programming Language	C#, VB.NET, Java, C, C++
Web Technologies	ASP.NET Core, ASP.NET MVC, WEB API, Entity Framework, Web Services
Tools	VS Code, Visual studio, MSSM, Jira
Databases and file formats	SQL Server 2008 and later
CMS	Umbraco, Kentico, Contentful, NopCommerce
Versioning Tools	Bitbucket, Github, Gitlab, TFS
Cloud Platform	Microsoft Azure, AWS, Umbraco Cloud

EXPERIENCE DETAILS:

I worked on many projects in .NET, .NET Core, Umbraco, and React. But listed out a few recent projects.

Digiwhiz (DEC-2017-Present): (Umbraco and .NET based)

1. **Project Name:** Connect market (Website and Portal)

Role: Sr. .NET developer / Sr. Umbraco developer / Jr. Solution Architect

Technologies: ASP.NET MVC, C#, Entity framework (Code First Approach), LINQ, CQRS Pattern, n-tier architecture, Razor view, MS SQL, HTML, JavaScript, CSS.

Responsibilities:

- ASP.NET Web Development using Umbraco CMS (Customer UI) and develop Supplier and Admin portal.
- Database Design
- On-going maintenance and modification of website and portal attend troubleshooting, error, and various upgrades at client's request.
- Testing and Quality Assurance
- Deploying Web sites and Databases
- Optimizations at code levels to improve website response time
- Accurately estimating development hours to complete tasks
- Developing solutions to fit within the allocated budget
- Explaining complex technical issues to non-technical team members and clients.
- Reporting technical issues to the Technical Director

- Some client liaisons including ad-hoc demonstrations and training
- Keeping myself updated with the latest versions of CMS and new technologies in the market which can improve coding practice as well as can help overall website projects

Umbraco:

<https://connectmarket.com.au/>

ASP.NET

<https://portal.connectmarket.com.au/>

2. **Project Name:** MyMoovers Tools

Role: Sr. .NET developer

Technologies: ASP.NET Core, HTML, CSS, JavaScript

Responsibilities:

- ASP.NET Core Web app development
- On-going maintenance and modification of website and portal attend troubleshooting, error, and various upgrades at client's request.
- Testing and Quality Assurance
- Deploying Web sites and Databases
- Optimizations at code levels to improve website response time
- Accurately estimating development hours to complete tasks
- Developing solutions to fit within the allocated budget
- Explaining complex technical issues to non-technical team members and clients.
- Reporting technical issues to the Technical Director
- Contributing to, writing, and refining company procedures and processes
- Some client liaisons including ad-hoc demonstrations and training
- Keeping myself updated with the latest versions of new technologies in the market which can improve coding practice as well as can help overall website projects

.NET Core

<https://www.mymooverstools.com.au/>

3. **Project Name:** C-Vision

Role: Sr. Umbraco developer

Technologies: C#, Umbraco 8, ASP.NET Framework

Responsibilities:

- ASP.NET Web app development using Umbraco CMS, Salesforce, Social media sharing API, Random Picker API, Chat-bot Room API.
- On-going maintenance and modification of website and portal attend troubleshooting, error, and various upgrades at client's request.
- Testing and Quality Assurance

- Deploying Web sites and Databases
- Optimizations at code levels to improve website response time
- Accurately estimating development hours to complete tasks
- Developing solutions to fit within the allocated budget
- Explaining complex technical issues to non-technical team members and clients.
- Reporting technical issues to the Technical Director
- Contributing to, writing, and refining company procedures and processes
- Some client liaisons including ad-hoc demonstrations and training
- Keeping myself updated with the latest versions of new technologies in the market which can improve coding practice as well as can help overall website projects

4. **Project Name:** TerraBloom(Mobile App APIs)

Role: Sr. .NET Developer

Technologies: ASP.NET Core, AWS Lambda Function, AWS Amplify, Dynamo DB

Responsibilities:

- .NET Core API development using AWS Lambda functions and API Gateway.
- On-going maintenance and modification of website and portal attend troubleshooting, error, and various upgrades at client's request.
- Testing and Quality Assurance
- Deploying Databases and APIs
- Optimizations at code levels to improve website response time
- Accurately estimating development hours to complete tasks
- Developing solutions to fit within the allocated budget
- Explaining complex technical issues to non-technical team members and clients.
- Reporting technical issues to the Technical Director
- Contributing to, writing, and refining company procedures and processes
- Some client liaisons including ad-hoc demonstrations and training

- Keeping myself updated with the latest versions of new technologies in the market which can improve coding practice as well as can help overall website projects

Ordex Technologies Solutions (Aug-2016 – Nov 2017):

5. **Project Name:** Campco.com (Ecommerce Application)

Role: .NET Developer

Technologies: ASP.NET MVC, Razor view, MS-SQL, Payment Gateway integration, JavaScript

Responsibilities:

- ASP.NET Core Web app development using C#, Razor view, MS SQL, Payment Gateway, Social sharing API, and sharing API.
- Testing and Quality Assurance
- Deploying Web sites and Databases
- Optimizations at code levels to improve website response time
- Accurately estimating development hours to complete tasks
- Developing solutions to fit within the allocated budget
- Explaining complex technical issues to non-technical team members and clients.
- Reporting technical issues to the Technical Director
- Contributing to, writing, and refining company procedures and processes
- Some client liaisons including ad-hoc demonstrations and training

Keeping myself updated with the latest versions of new technologies in the market can improve coding practice as well as can help overall website projects

Potenza Global Solutions(APR - 2015 – Aug-2016):

6. **Project Name:** Burj Khalifa (FB App to booking tickets)

Role: Web Developer

Technologies: ASP.NET Core, Razor view, MS-SQL, Payment Gateway integration, Javascript

Responsibilities:

- ASP.NET Core Web app development using C#, Razor view, MS SQL, Payment Gateway, Facebook App and sharing API.
- Testing and Quality Assurance
- Deploying Web sites and Databases
- Optimizations at code levels to improve website response time
- Accurately estimating development hours to complete tasks
- Developing solutions to fit within the allocated budget
- Explaining complex technical issues to non-technical team members and clients.
- Reporting technical issues to the Technical Director
- Contributing to, writing, and refining company procedures and processes
- Some client liaisons including ad-hoc demonstrations and training

Keeping myself updated with the latest versions of new technologies in the market can improve coding practice as well as can help overall website projects

EDUCATIONAL QUALIFICATION:

- Bachelor of Information Technology – Gujarat Technological University (2014)
- Diploma in Information Technology– Gujarat Technological University -(2011)
